THE CURRICULUM

Students may choose to work toward a Bachelor of Arts or a Bachelor of Science in Psychology. The OSU Psychology Department offers an education emphasizing:

- The cognitive, social, biological and emotional bases of behavior
- The critical evaluation of research
- Research design and data analysis

If you have ever wondered:

- **HOW DOES MEMORY CHANGE AS WE AGE?**
- **HOW ARE GENES AND PERSONALITY RELATED?**
- **DO SOCIAL RELATIONSHIPS AFFECT OUR HEALTH?**
- **CAN WE CHANGE THE WAY PEOPLE WITH DEPRESSION AND ANXIETY THINK?**

If so, Psychology may be the right major for you. Psychology is the study of behavior. Most of the faculty in the OSU Psychology Department study human behavior, but some also study animal behavior. Regardless of whether our focus is on organisms with two legs or four (or more!), we are interested in describing, explaining, predicting and modifying behavior.
OPPORTUNITIES FOR PSYCHOLOGY STUDENTS
• Collaborate with faculty on research
• Work with faculty as teaching assistants
• Study abroad
• Psi Chi National Honor Society
• PSYCH Club

SCHOLARSHIPS
• Stockton Memorial Scholarship
• PSYCH Club Scholarship
• Wentz Research Scholarships
• Niblack Scholarship

3+3 LAW OPTION ALLOWS FOR EARLY ADMISSION
• Complete bachelors and law degree in six years instead of seven
• Works at all Oklahoma law schools and others that offer early admission opportunities

CAREERS Psychology majors are competitive for a variety of careers that emphasize understanding human behavior, interpersonal skills, or research and data analysis skills

OUR GRADUATES’ CAREERS
• Clinical Psychologist
• Experimental Psychologist
• Attorney
• Social Services Case Worker
• Pharmaceutical Sales Representative
• Teacher
• Counselor
• Physician
• Mental Healthcare Center Marketing Representative
• Physician’s Assistant
• Physical Therapist

COURSES The Psychology Department’s undergraduate program offers excellent training in understanding human behavior and the uses of scientifically rigorous methods. A degree in psychology also serves as the foundation for various careers and helps students acquire a range of skills (problem solving, communication, research, computer literacy, etc.) that are applicable to the career path of their choice. Our degree allows students to complete a second major or a minor, often without additional hours. Or add a psychology component to another degree:

• A psychology minor requires 24 hours of PSYC courses
• A double major requires 41 hours of PSYC courses
